Re: Royal Hong Kong Yacht Club
Monitoring and Reporting of Defect Rectification Work

We hereby confirm that Projexasia Limited was appointed to provide project management services for monitoring and reporting the progress of defect rectification works carried out by others at Royal Hong Kong Yacht Club, Causeway Bay.

The scope of services was for Projexasia to provide qualified staff to monitor and report the progress of defect rectification works with preparation and submission of daily reports, and provision of professional advice to The Club from 2 January 2010 to 8 February 2010.

We were very pleased with their services and professional advice provided by Projexasia, and would have no hesitation in recommending Projexasia to other clients with similar works requirements.

Yours Sincerely

Ray Parry
General Manager
Royal Hong Kong Yacht Club
